Work Experience

MERN Intern

Jun 2024 - Jul 2024

Marvik Academy of Technical Education | udaipur

I interned at Mate, where I developed a full-stack application using the MERN stack. This experience honed my skills in MongoDB, Express.js, React.js, and Node.js, allowing me to create dynamic, responsive, and scalable web applications.

- Learned Redux
- Multer to Store Images
- State Management

Projects

Inventra

Jun 2024 - Present

Developed an inventory and invoice management system using the MERN stack. Initially faced challenges in state management, leading to inconsistent data. Resolved the issue by implementing Redux, which streamlined state handling and improved data consistency across the application.
